### CFS Expands to New Location

HIGH POINT, N.C. – December 12, 2016 – Computerway Food Systems announced a new address for CFS operations. The new facility provides much needed space for offices, manufacturing, programming and support services with ample room for company growth.

The 22,000 square foot facility was customized for CFS over a 10-month period. It is located at 2700 Westchester Drive, High Point, North Carolina, 27262, less than a mile from CFS's previous location.

Computerway Food Systems (CFS) is a software and hardware company in the food processing industry, specializing in production and inventory control systems with an emphasis on Recall. The Wolf electronic weighing system is designed for high speed sorting on overhead conveyors. CFS support services include Project Management, Onsite Technicians and 24x7 HelpDesk. The company was founded in 1986. [www.mycfs.com](http://www.mycfs.com)
